

Get to Know North Brooklyn Waters

Paddle around **Randall's Island**; head to **Hell Gate, Harlem River, North and South Brother Island!**

U Thant Island, inhabited by nesting cormorants & black backed seagulls

Amazing sunset and **Manhattanhenge** views

Bottlenose dolphin and **harbor seal** sighted March 2013

EAST RIVER

Voyage to **Brooklyn Bridge Park, Governor's Island, Red Hook** and beyond!

Anable Basin, a quick paddle away and home to LIC Community Boathouse

Low bridge! Watch your head paddling into **Dutch Kills** and say hi to our friends at **LaGuardia Community College**

Whale Creek, home of NYC's wildest park, the **Newtown Creek Nature Walk**

Maspeth Creek, home to kingfishers, egrets, cormorants and a great blue heron; low tides often reveal sunken cars and noxious odors

Broadway Stages Boatyard, NBBC's launch at 49 Ash Street.

Oil Spill Remediation Site for 2nd largest spill in US history

NC-083, the largest of 23 combined sewer overflow (CSO) outfalls in Newtown Creek, releases 500+ million gallons of untreated wastewater each year. Report dry weather overflows to 311.

Bushwick Inlet, historic launch site for the USS Monitor.

Pippin Beach, named for the Newtown Pippin Apple tree that grows here

Wallabout Channel, a calm place for paddlers to pause

Special Thanks to:

Sponsors: Allocco Recycling, Box House Hotel, Broadway Stages, Build It Green NYC, City Councilperson Steve Levin, Hudson River Foundation, NY Distillery, State Assemblyman Joe Lentol and TNT Scrap

Partners: Greenpoint Waterfront Association for Parks and Planning, LaGuardia Community College, Newtown Creek Alliance, Open Space Alliance for North Brooklyn

North Brooklyn Boat Club

Greenpoint and Williamsburg are surrounded on three sides by some of the most interesting and challenging waterways in the world. North Brooklyn Boat Club has the boats, safety gear and training to get you on the water and into a new way of experiencing New York. Get involved with our programs on and off the water, including:

- guided paddles
- water quality testing
- wildlife monitoring
- boat building & restoration
- gardening & composting

Find us online: NorthBrooklynBoatClub.org
Tweet us: [@NorthBkBoatClub](https://twitter.com/NorthBkBoatClub)

Visit our boathouse: 49 Ash St (at McGuinness Blvd)

2013 Slack Water Chart

Unlike most places, where tidal currents flood (rise or flow inbound) until high tide and then ebb (fall or flow outbound) until low tide, New York Harbor has a tidal current lag.

This chart shows predicted times of slack water, when the current is about to switch directions:

- A plus sign (+) indicates slack time at high water, meaning the current will begin ebbing or going out.
- A negative sign (-) indicates slack time at low water, meaning the current will begin flooding or coming in.

Tidal predictions are for reference only as conditions vary. Always use common sense and follow all safety protocols at all times. Tidal current predictions are sourced from the National Oceanic and Atmospheric Adminstration (NOAA) for the East River, off 31st Street in Manhattan, the nearest reference station to Broadway Stages Boatyard on Newtown Creek.
